

HIREEASE

HIRING MADE EASY

**HIRE
EASE**

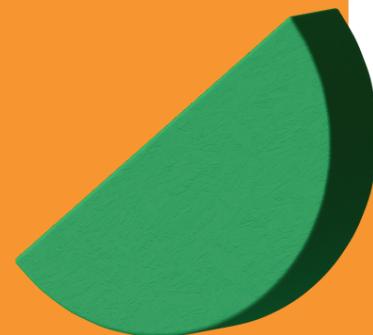

PROJECT OVERVIEW

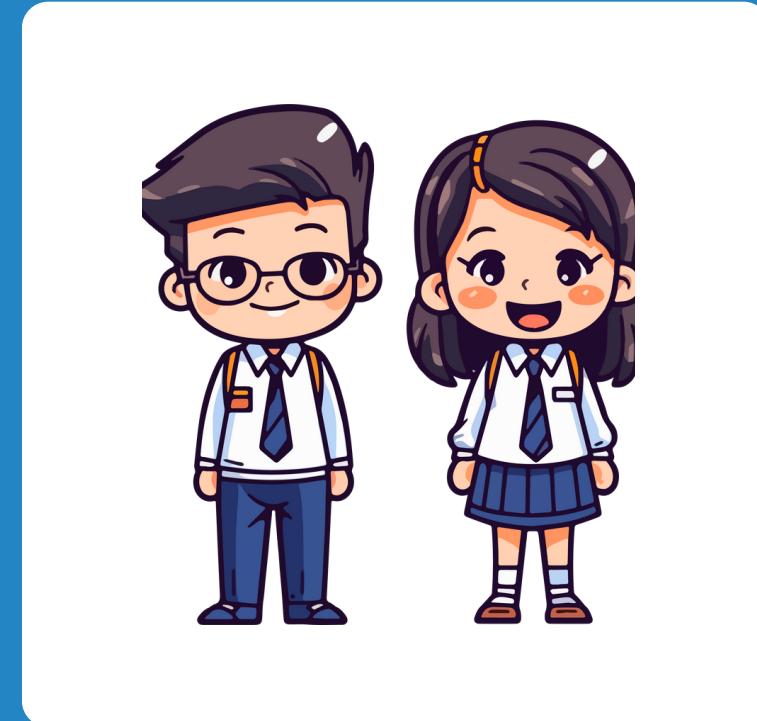

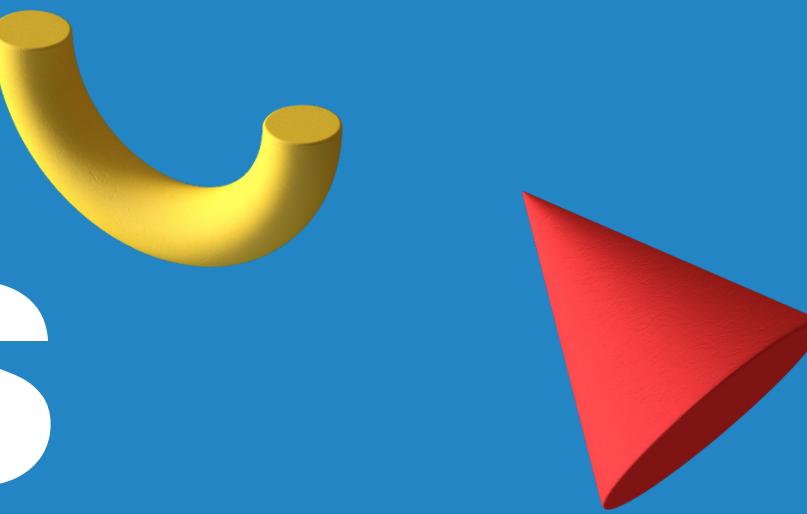

Purpose: The purpose of HireEase is to address the challenge faced by colleges without existing placement websites. It aims to provide a centralized platform for job placement, streamlining the process for both companies and applicants.

Objectives:

- 1. Facilitate Job Search and Application Process**
- 2. Simplify Company Profile Management**
- 3. Enhance Applicant Profile Management**
- 4. Streamline Interview Scheduling**
- 5. Display placement results to students in a timely and accessible manner.**

USER ROLES

STUDENTS

Students can:

- View company details and job openings.
- Apply for job openings.
- View placement results.
- Update personal profile information.
- Receive notifications about upcoming interviews and placement events.

PLACEMENT CELL HEAD

Placement Cell Head can:

- Manage overall placement process and activities.
- View aggregated placement statistics and reports.
- Approve company registrations.
- Monitor placement progress and outcomes.
- Communicate with companies and students regarding placement-related matters.

PLACEMENT CELL COORDINATOR

Placement Cell Coordinator can:

- Assist in managing day-to-day placement activities.
- Coordinate with companies and students for scheduling interviews and events.
- Review and approve student applications for job openings.
- Generate reports on placement activities and outcomes.
- Provide support to students and companies regarding placement inquiries.

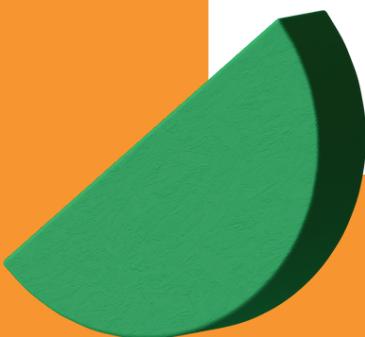

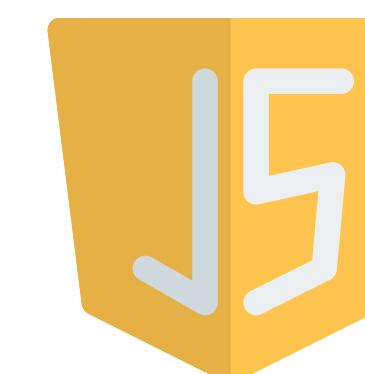

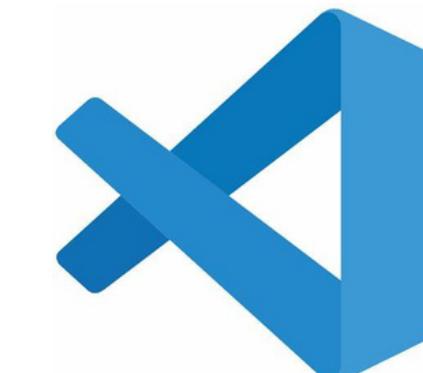

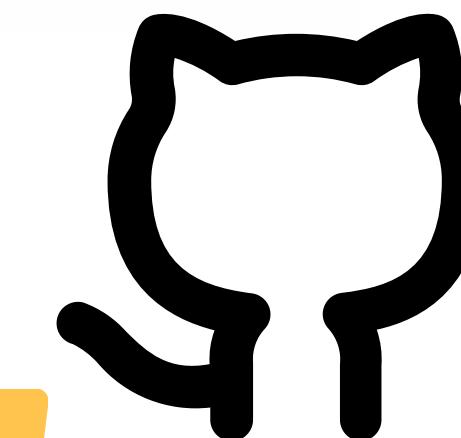

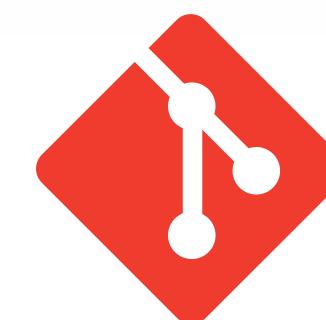

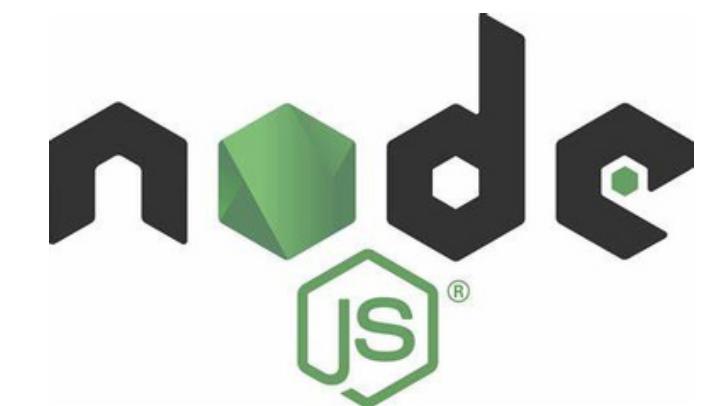

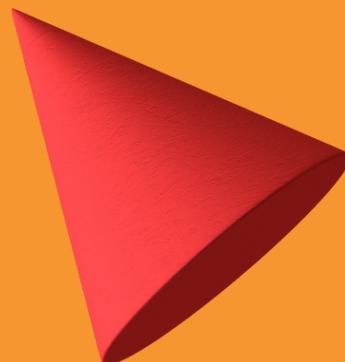

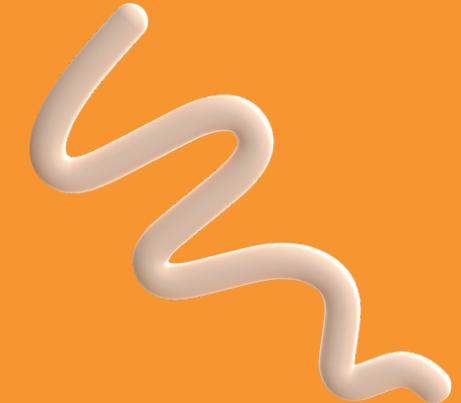

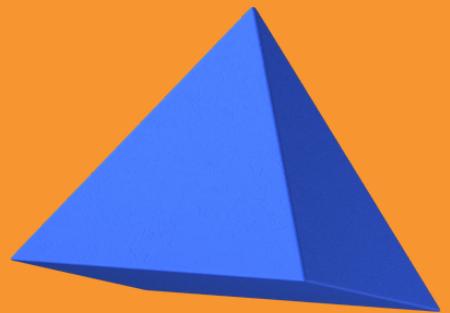

COMPANY

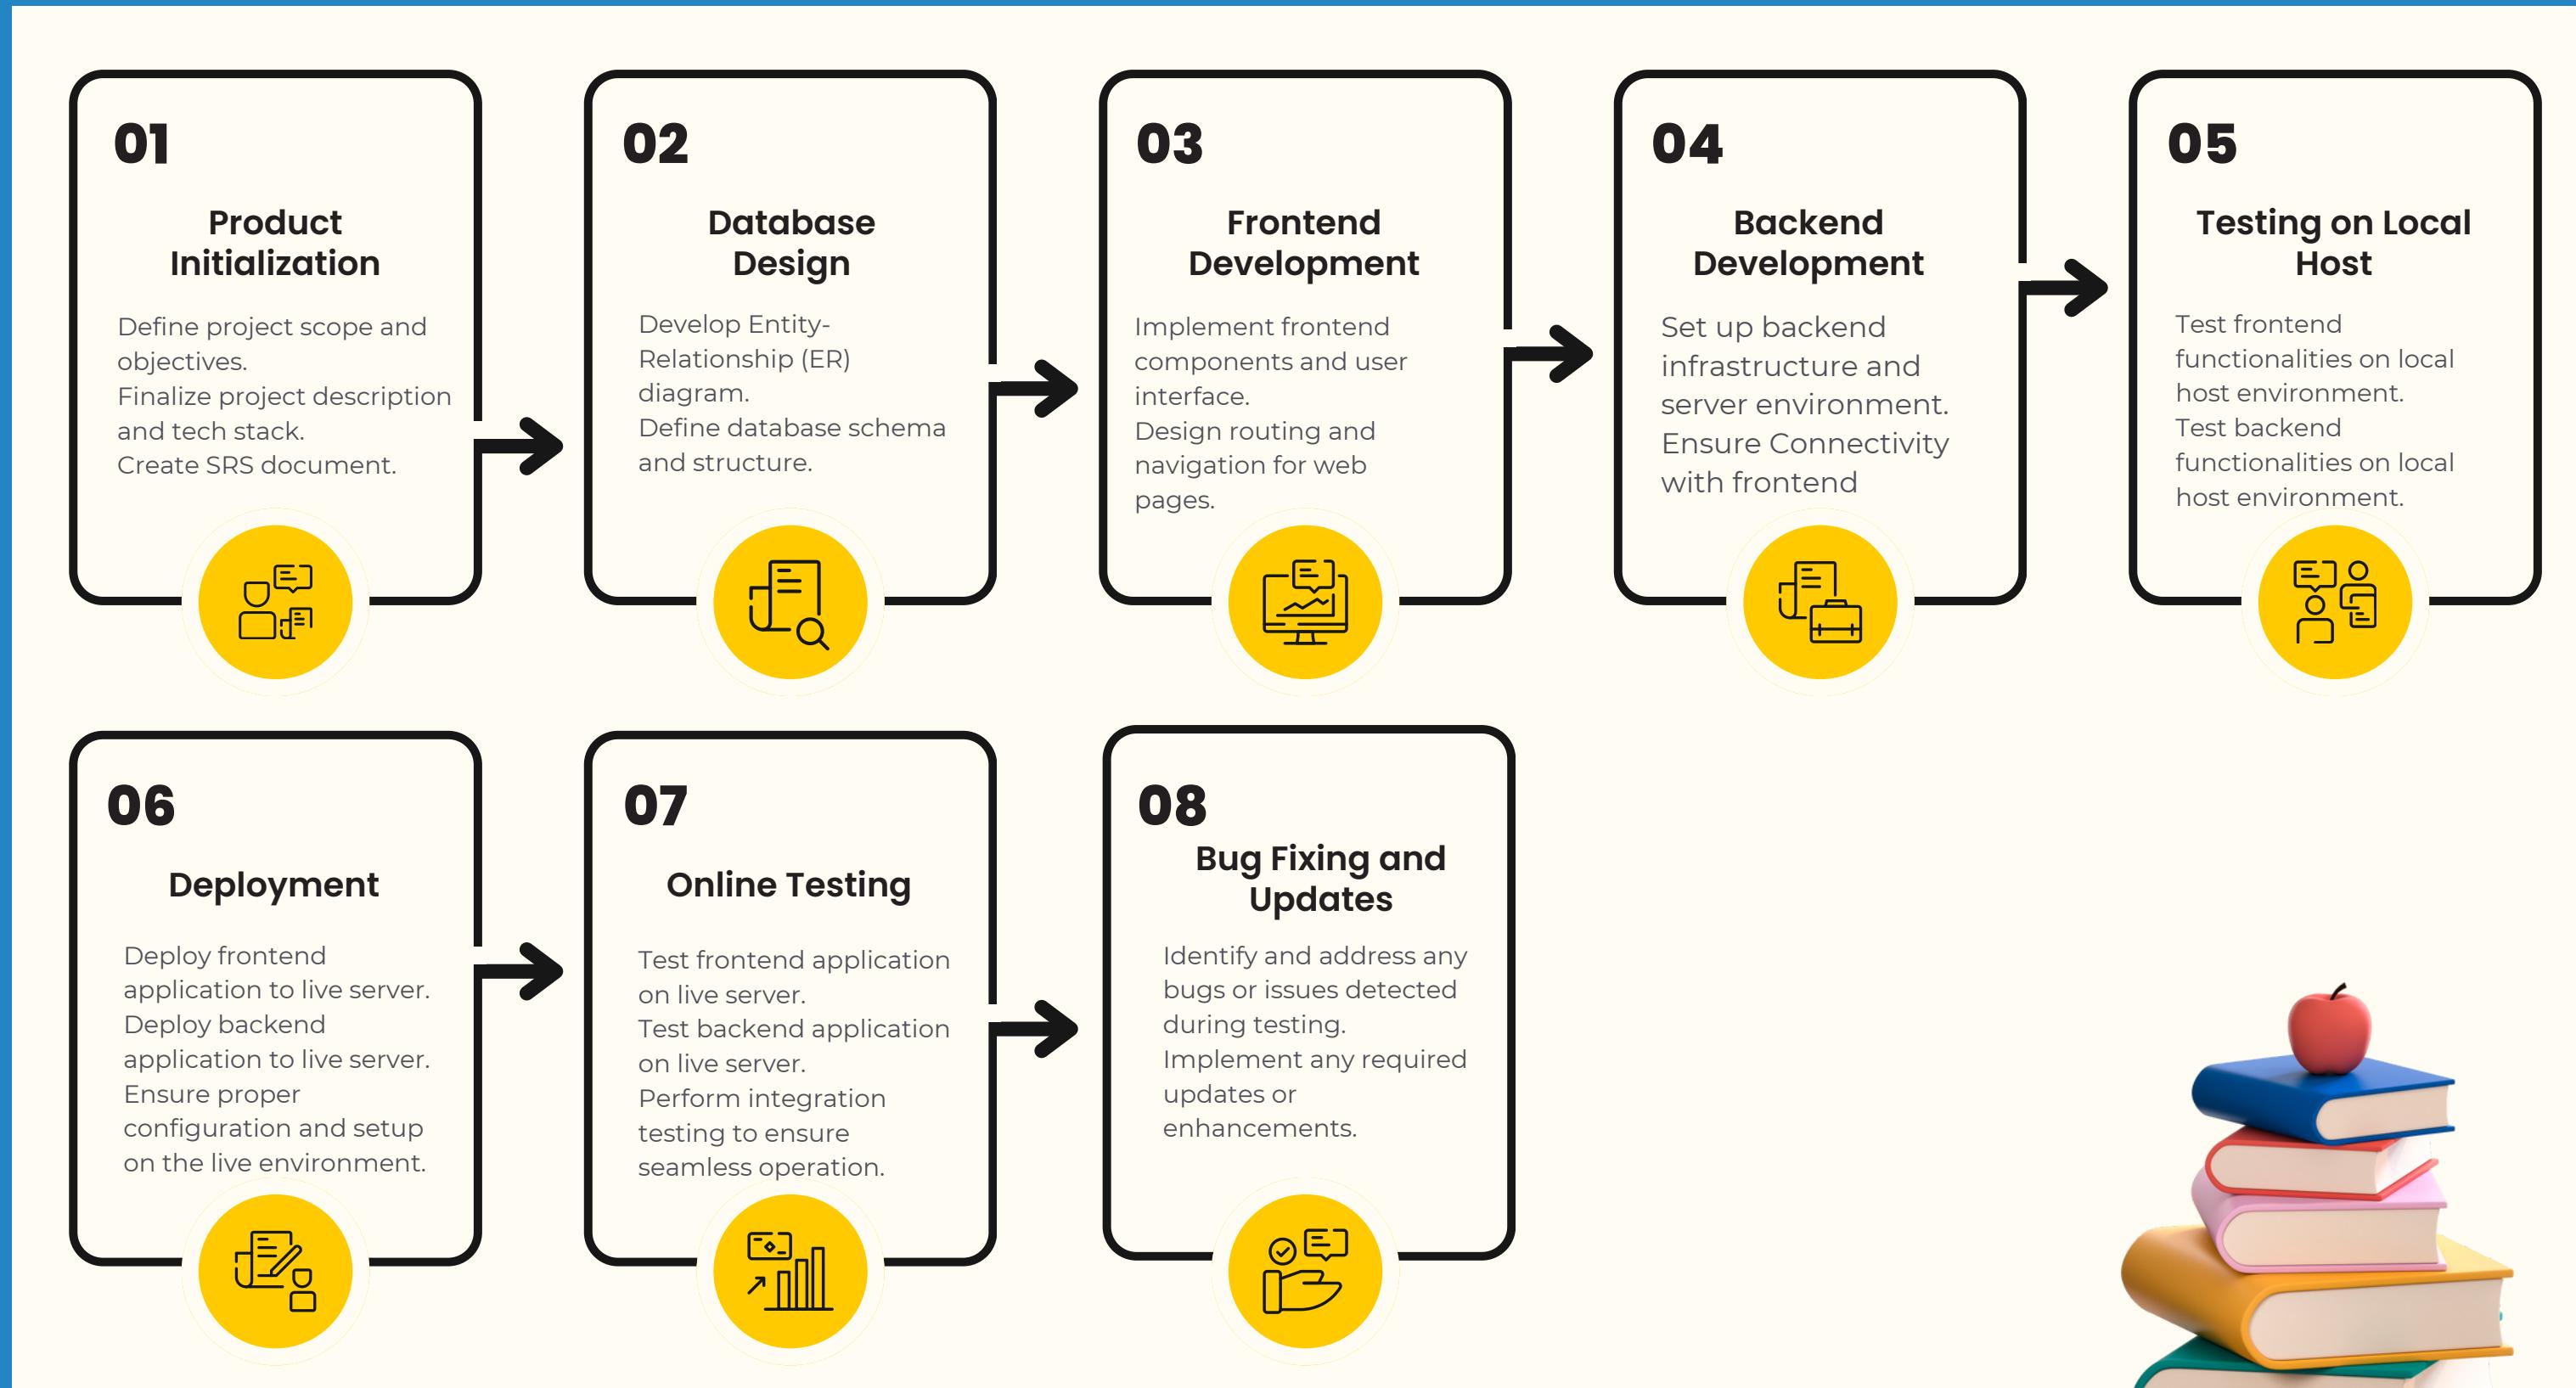

Company can:

- Register the company with the system.
- Post job openings and manage job listings.
- View applications submitted by students for their job openings.
- Schedule interviews with students.
- Communicate with students regarding interview outcomes and placement offers.

APPLICATION

Applications of our website:

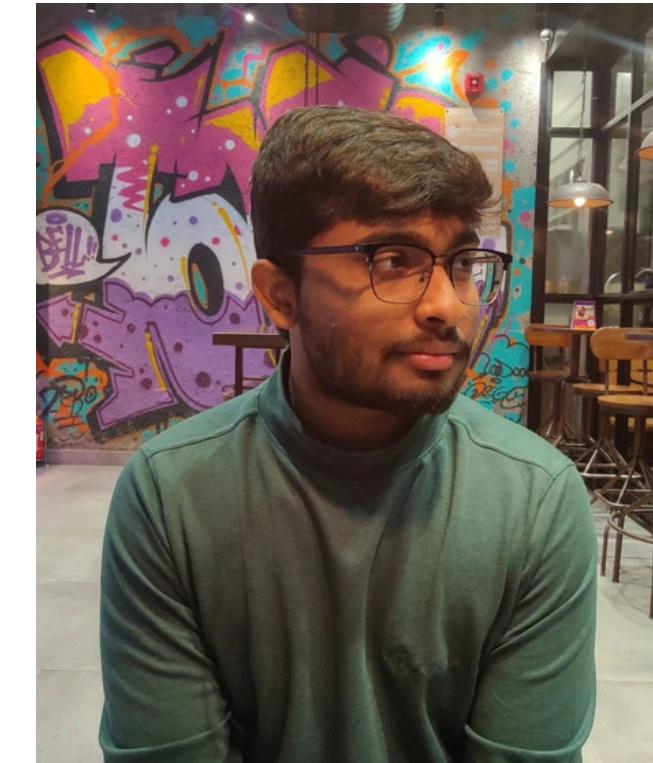

1. College placement offices can use the system to streamline and automate their placement processes.
2. Students can use the system to access information about job openings from various companies.
3. The system provides students with insights into placement results, helping them make informed decisions about their career paths.
4. Placement coordinators can manage placement activities more effectively using the system.
5. The system provides companies with insights into the pool of talent available and helps them connect with potential candidates efficiently.
6. Placement cell heads can oversee the entire placement process and monitor progress using the system.
